Stanton Direct Drive Turntable

Voted Best New Turntable by DJ Mag. We prefer these decks over the Technics MK5's due to their amazing functionality, versatility, and of course, exceptionally good looks.

Price: \$599.00
 Order #: ST-150
 Type: Turntable

PIONEER DDJ-S1

Price: \$999.00
Order #: DDJ-S1
Type: Controller Interface

Pioneer DDJ-S1

The DDJ-S1 allows for easy transfer of music from the user's laptop with a USB connection for simplicity and quick "plug-and-play" capability with Serato ITCH DJ software. For additional convenience, the controller also comes with a space saving computer dock that allows a laptop's keyboard to slip directly under the controller, enabling its monitor to be closer to the DJ to provide fast visuals of song information while mixing. The device adopts Pioneer's "P-LOCK Fader Cap," designed to prevent the fader caps from slipping. Features Plug and play USB connectivity with 2-channel deck control Included Serato ITCH DJ software and added functionality Multiple input and output options Specially designed user interface Optimized controller for highest quality sound P-LOCK Fader Cap lock mechanism design Premier built-in sound card Mic inputs equipped with talk-over function.

Who We Are

In spite of many trials and tribulations as a young teen, DJ LisaLove dreamt of greater things.

After spending the first years of her life in Philadelphia LisaLove moved to Loch Sheldrake, New York where she learned the art of DJ'ing from DJ Smooth in 1984.

In 2000 LisaLove moved back to Philadelphia where she took a course in music production in pursuit of DJ'ing professionally; soon after she was hired as a sound technician for the former Brave New World Nightclub which hosted a weekly event (House of Soul) by Come Kleen Productions. As fate would have it LisaLove was given the chance to shine when Come Kleen's CEO John Barber took a chance and put her on the "wheels" when his regular DJ failed to show. Needless to say, he was impressed with her skills. Neither one has looked back since.

That was ten years ago. Since then DJ LisaLove has opened for celebrities and recording artists like LL Cool J, Jadakiss, Faith Evans, Cedric the Entertainer and many others. She was the first female DJ in Philadelphia on a major radio station (Power 99 FM), "spinnin" for Tiffany Bacon and Golden Girl. She shot a cameo for the film Scene Not Heard and has appeared in several publications touting her prowess as a DJ.

Currently LisaLove owns and operates the More Than Music DJ Institute. Founded in 2007, LisaLove instructs individual and group classes of "everyday people" who want to learn. Her students are also afforded several workshops a year with guest DJ's like TouchTone, J-Ski, Kam, Cutlass, D-Lux, and K-Swift ensuring thorough instruction on all aspects of her craft.

She is an authorized dealer for Pioneer, Behringer, Stanton, Sony, Vestax, Ortofon, Flud Watches, and a few others. She is able to provide an option for you to purchase your DJ equipment through her company, assuring you will get quality equipment from someone who you know and trust.

We have lots of equipment not shown in our catalog. Ask us about any equipment that you're looking for.
